

Vast, Vacuous, and Hungry

*Press “On,” swipe up, and enter PIN. Tap tap,
Tap tap. then click “OK.”*

A swipe, a scroll,
The feed comes up. With ads. And junk. And crap.
Let me move on. No wait, back up, this whole
Account should go away.

*Tap username,
Tap “Following,” “Unfollow,” then refresh.*

Back to the finger flick, more of the same.
Images pass. I watch and scroll. I thresh
The feed until a post slows to a stop.
Is it heart worthy or more folderol?
Into the endless, vast, vacuous scroll,
I’m deep and going down, far from the top
And reaping who-knows-what. I can’t recall
Why I unlocked my phone. Damn hungry hole.
